

For Non-Japanese Speaking Patients

To facilitate the highest quality of care and create a supportive environment, Seibo Hospital offers medical interpretation services and communication assistance to patients with limited Japanese proficiency.

- Floor guide in multiple languages
Floor guide and directions are written in Japanese and English. Some medical questionnaires are prepared in multiple languages.
- Interpretation service
Our bilingual staff provides language assistance in English, Spanish, French and Burmese (Myanmar) during regular consultation hours. We also have Chinese and Filipino speaking staff.
